

Management Office

We wish to clarify that is beyond our scope to postpone monthly meetings and/or special meetings for the remainder of the year; there is no room for such change. In the year (including December) we would have a total of 16 meetings held. Please be aware that on the month of December this Association do not hold meetings and because of the aforementioned, there will be one. We hope you understand and support us.

Our Community

Kids from our community having fun.
