

MANAGEMENT OFFICE

We've been taking more security measurements so our community feels safer and have placed 79 security points when rounding in different areas of the building.

- The camera located at visitors' area has been replaced.
- A new Security Guard will be hired to enforce this Department.
- Our Maintenance & Janitorial personnel have been working in cleaning the garage, we want to thank them for the good work and dedication!

From the Property Manager's Desk:

On behalf of our Office; I want to take the opportunity to thank all unit owners for their recognition of the office operation and functionality. Your great support and ovation (Board meeting 3/19/15) is a great incentive to our personnel. Jorge L. Santos, PM
